Clinical Comcitt TDO

Clinical Comcitt TDO is a patented System and is a world first to infuse active drone technology serum with 185% topical dissolved oxygen (TDO) saturation while cooling the serum to just above freezing.

Crystal Clear Clinical COMCIT TDO™ is the latest age-defying alternative – utilising topical dissolved oxygen, cooled through an internal Peltier system and delivered through a micro- channelling needle head. The chilled topical oxygen infusion keeps the skin in a de-stressed state while intensely treating the skin for a whole host of skin concerns.

The advanced system combines freeze-therapy and micro-channelling with oxygen infusion to stimulate new collagen production, significantly reduce lines & wrinkles and rejuvenate skin texture and firmness.

Clinical COMCIT TDO™ is safe to use on all skin types and tones. Different treatment options are available including stand alone microdermabrasion and oxygen therapy.

SkinPen

SkinPen Precision is a leading skin remodeling device that creates temporary small microscopic channels in your skin.

This simple procedure activates your body's natural skin-healing power to increase collagen and elastin so your skin returns to a healthier looking and youthful appearance.

This treatment is used to treat skin ageing, acne scarring and pigmentation.

SkinPen Precision is clinically proven safe and effective. It is the first FDA-cleared and CE medical registered device on the market.

LASHUS LASH LIFTING

LASHUS THE LIFT works with your natural lashes, creating the appearance of longer, thicker, more visible lashes. By straightening the natural lashes at the root, THE LIFT instantly gives extra volume, definition and length. Finishing THE LIFT is a deep intense tint to both upper and lower lashes for that extra LASHUS factor. A patch test is required at least 48 hours prior to your treatment.
